The figure contains two technical line drawings of the STC 6000 motor. The left drawing is a front view showing the motor's main body, cooling fins at the top, and a terminal box on the right. A label with the 'STC' logo is positioned on the front panel, with a leader line pointing to it from the top center. The right drawing is a side profile view of the same motor, highlighting its compact, rectangular shape and the mounting flange on the right side. A vertical dashed line separates the two views.
